In the academic year 2023-2024, Hostel student applications has been received through HMS portal. The student account details and Aadhar number are captured through applications for disbursing miscellaneous amount to the student account number.

In the reference 1<sup>st</sup> cited this department has requested to create the Account details and Aadhar Edit module in warden login for update the above said details. In this continuation, Tryme Tech has created the bank account details update "without Aadhar number and same has been shown in Head office login.

This department has decided to disbursing miscellaneous amount to Student's Aadhar seeded account number. We check the student Aadhar details which are export from "student bank details report" module, it shows multiple error in Aadhar number like duplicate, zero. Hence, we are unable to disbursing the miscellaneous amount based on the current Aadhar records.

Therefore I request you to create the 2 modules in HMS portal

1. "Aadhar Number Update" module → DADWO login
2. "Aadhar Number Details Report " → Head office login
